

CASE STUDY

Parking Deck

Since 2001 Pro Set has done 7 parking decks.

Since our Polyurea offers 650% elongation, over 2500 psi tensile strength, and other unbeatable properties.

The color retention is excellent in Lt. Gray to Black.

It will last much longer than Neogard or Sonneborn deck coating.

Pictured below is a deck we were working on in Florida with the Good Year blimp checking us out.
